THE SUN!!

PROFESSIONAL  
& AMATEUR  
DIVISIONS

PRIZE  
MONEY  
FOR THE  
WINNERS!

## CONTEST RULES & PARTICIPATION TIPS

- Teams can be comprised of no more than 10 people, including the team captain.
- Each team will be assigned a pre-raked 14' x 14' plot of sand at the start of the contest.
- You may fill your buckets with water in advance, but must wait until 11:00am to start using them.
- Starting at 11:00am, teams will have 3 hours to build. Bring sketches, drawings, etc. ahead of time.
- Pile wet sand and pack it as you build up. Use shovels and buckets to fill and transport wet sand.
- Pre-made forms (wood or plastic) can be packed with sand, inverted and removed for shaping.
- No structure materials other than sand and water can be used in completed castles or sculptures.
- Only shells, seaweed, rocks and driftwood found on site may be used to decorate your creation.
- Shape and detail with any hand tool: spoons, melon scoopers, rakes, combs, straws, putty knives.
- Shape from the top of the piece towards the bottom, move sand away as you work.
- Misting with water from spray bottles or garden sprayers will keep the sand from drying and prevent the loss of fine details.
- Castles and sculptures will be reviewed by a distinguished panel of judges and awards presented in Professional and Amateur divisions on the Festival Main Stage.
